To Whom It May Concern:

This letter of recommendation is to support Sudha Govindswamy Sunder for any teaching or curriculum and instruction leadership position for which she may apply. Sudha attended my intensive week-long training and certification program in Concept-based Curriculum and Instruction and passed the written and performance assessments with one of the highest scores in seven years of institute offerings. As the author of four books on concept-based curriculum and instruction and a life-long educator serving in teaching and administrative roles, I was struck by Sudha's grasp of the tenets of concept-based and her passion for intellectual engagement and further learning. Sudha is one of the best presenters I have had the honor of watching. Her verbal ability and facility, her command of the content, and her ability to connect with her audience make her stand out from the majority of presenters. She is clear in her organization and presentation of material and exudes "presence." I have gladly recommended Sudha for many consulting jobs and conference presentations.

Sudha has a strong teaching and leadership background and is current on best practice. She achieved the doctoral level which shows her academic perseverance and dedication. She has worked at the school level for many years in teaching and leadership roles and can relate to the roles and needs of classroom teachers. I give my highest recommendation for Sudha Govindswamy Sunder for any curriculum and leadership position for which she may apply, whether it be at a school, school district, or university level.

Sincerely,

H. Lynn Erickson, Ed.D.
